

We have started early earthworks on the site of Western Sydney Airport.

Dear neighbour,

Early earthworks will lay the foundations for the construction of the airport, and will include:

- The delivery of earthmoving equipment and establishment of site offices
- Moving 1.8 million cubic metres of earth within a prescribed area of the site
- Construction of a new and realigned Badgerys Creek Road
- A new intersection at Elizabeth Drive, in collaboration with Roads and Maritime Services.

This early earthwork is being carried out by the CPB Contractors and Lend Lease Joint Venture (CPBLL JV) and is expected to be completed by the end of 2019.

Site compound

A site compound, internal fences and accessway is being set up at the northern end of Badgerys Creek Road, adjacent to Elizabeth Drive Badgerys Creek.

To safely access the compound, a temporary roundabout and access points needs to be constructed on Badgerys Creek Road. We are doing some preliminary site investigations along the Road to finalise the design for these works.

To keep you and our workers safe we'll have traffic control, management measures in place while we are working. When we have completed our investigations, we can finalise the design and then carry out works.

Preparation for main earthworks

The early earth works site split by Badgerys Creek Road, bordered by Elizabeth Drive and Badgerys Creek (see map overleaf) is being prepared and cleared for works.

This includes the following activities:

- site investigations and remediation,
- existing service identification
- removing topsoil and vegetation
- stockpile management and,
- improvement works such as creating internal haul roads.

Main earthworks

The main earthworks will commence once the site has been prepared.

We look forward to working closely with our neighbours.

Where

Elizabeth Drive and Badgerys Creek Road, Badgerys Creek

What are the construction hours?

Working hours are between 7am and 6pm Monday to Friday and from 8am to 1pm on Saturday, if required.

No work will be carried out on Sundays or public holidays without prior notice.

Contact us:

If you have any questions, or would like to provide feedback about the works, please contact our Project Team:

- 1800 951 171
- WSAenquiries@cpblljv.com.au

If you have any questions about the airport generally, please contact Western Sydney Airport:

- info@wsaco.com.au
- 1800 972 972

Notification No. 2

You will notice more vehicles on Badgerys Creek Road. We will have traffic control in place to ensure the vehicles can safely cross the road.

Managing work impacts on you

We will have measures in place to manage and minimise any impacts and make every effort to minimise disruption to you during works.

Traffic changes on local roads

To ensure the safety of motorists and workers, there will be some temporary traffic changes in place along Badgerys Creek Road during working hours.

This will include temporary speed zones and lane closures which may impact travel times for motorists. We ask that you take the time to observe the traffic changes and obey displayed road signage at all times.

Map of early earthworks location

We will keep you updated as the works progress and how it will impact you.

We speak your language

Need an interpreter?

Call the Translating and Interpreting Service on **131 450**.

Trucks on the road

With more trucks about, be aware of heavy vehicles when on or near the roads around Western Sydney Airport

We look forward to working closely with our neighbours.
