## Visitor Centre and Site Accommodation | May 2019

### Delivery of Visitor Centre and Site Accommodation Modules

Dear neighbour,

As part of the ongoing works to construct the Western Sydney Airport Visitor Centre and Site Accommodation facility, the Project team is preparing to install building modules.

Due to approved road permits and to minimise impact to motorists, the delivery of building modules will occur over 5 nightshifts between 2:00am and 5:30am from Tuesday, 7 May 2019.

Other works planned over the coming months include:

- construction of in-ground services
- installation of Visitor Centre and Site Accommodation modules
- internal finishes for Visitor Centre and Site Accommodation buildings
- installation of a kiosk substation
- earthworks and pavement construction for Eaton Road
- pavement construction for the Visitor Centre and Site Accommodation

Please see map overleaf.

All works are being carried out by Watpac Construction and are expected to be completed later this year.

### Site Compound

The Visitor Centre and Site Accommodation work site compound (including offices) is located on the southern end of Eaton Road.

### Traffic changes on local roads

Traffic control and pedestrian management, including temporary speed zones, traffic controllers and temporary barriers, may be in place to ensure the safety of motorists, residents and workers.

Construction vehicles will be using The Northern Road and Eaton Road as works are carried out. Measures will be in place to minimise impacts to you during the work.

If you travel along the route, please allow extra travel time and follow the signage and direction of traffic controllers.

We will continue to update you as work progresses with the construction of the Western Sydney Airport Visitor Centre and Site Accommodation facilities.

If you have any questions about this work, please call 1800 972 972 or email [info@wsaco.com.au](mailto:info@wsaco.com.au).
