Early earthworks

November - December 2019

Out of hours work for Western Sydney International, Badgerys Creek

Dear neighbour,

As part of the Early Earthworks for Western Sydney International, works are continuing for the construction of the new, realigned section of Badgerys Creek Road between Elizabeth Drive and Longleys Road, as well as completion of cut and fill works, totaling around 1.8 million cubic metres of earth.

This work includes:

- construction of a new roundabout and civil works on Elizabeth Drive
- asphaltting and installation of concrete pavements
- concrete saw cutting
- new stormwater drainage installation
- adjustment and connection of utilities
- connection of new communication services.

These works will be carried out at the following time and location, weather permitting, to minimise impacts on road users:

- **Monday, 25 November and Thursday, 28 November from 12am to 6am**, at the intersection of Longleys Road and Badgerys Creek Road, and behind the concrete barriers on the northern side of Elizabeth Drive.
- **Five shifts between Monday, 2 December and Sunday, 15 December from 8pm to 5am** on the eastbound lane of Elizabeth Drive between Badgerys Creek Road and Lawson Road. Traffic control will be in place with the eastbound lane closed.

- **Friday, 22 November until Tuesday 31 December from 5.30am to 12am (weekdays) and Saturdays from 7am to 5pm** on the new Badgerys Creek Road alignment.

Traffic changes

Please keep to the speed limits, follow the direction of traffic controllers and signs and allow additional travel time.

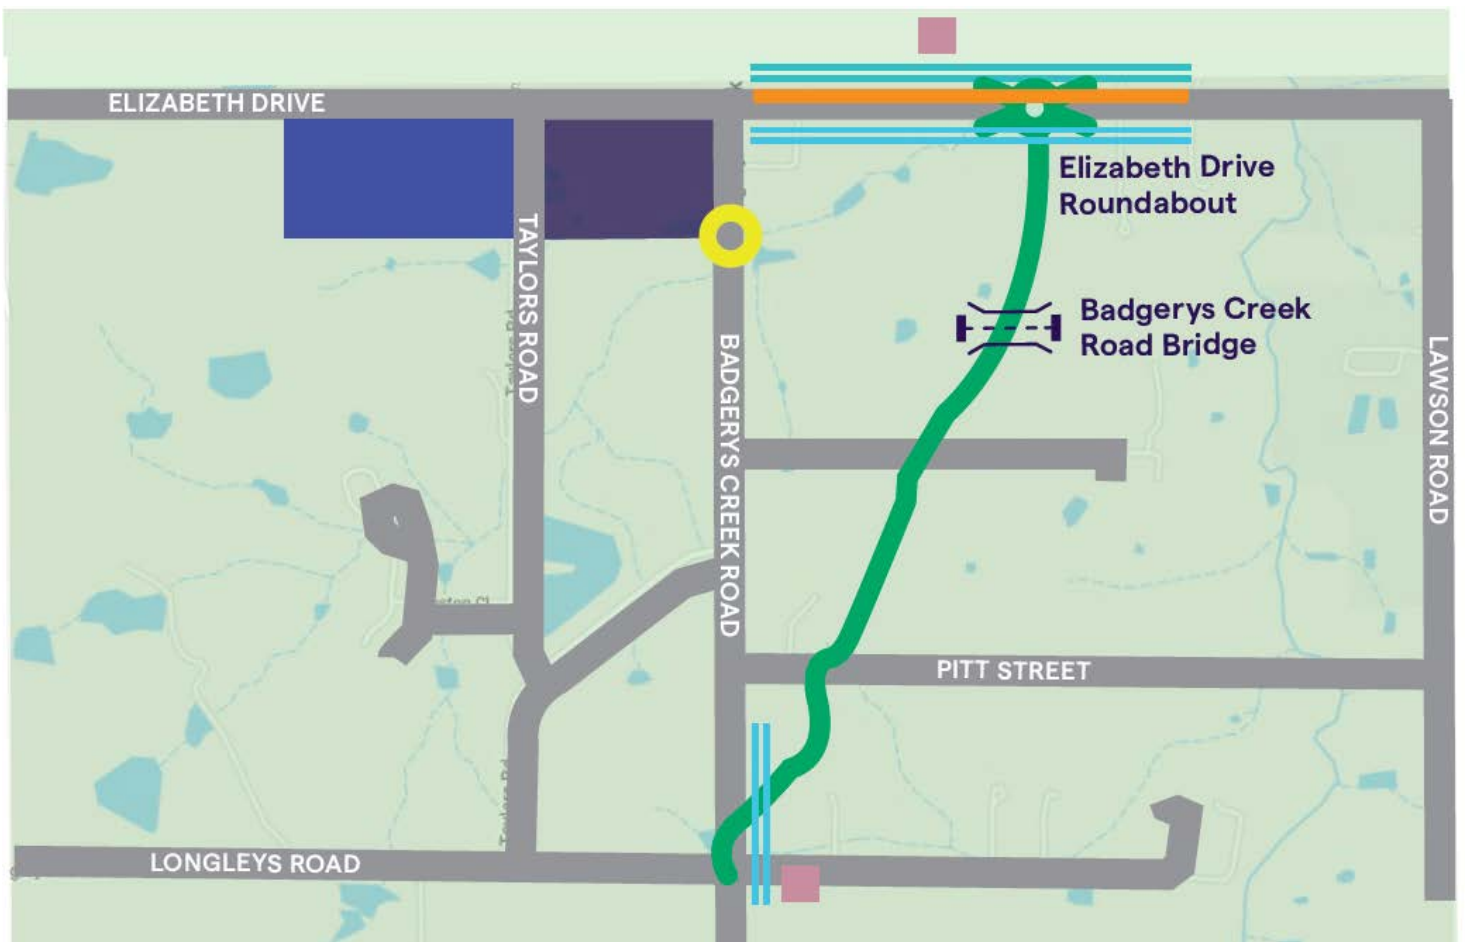

We thank motorists for their patience during this work.

Early earthworks are being carried out by the CPB Contractors and Lendlease Joint Venture and are expected to be completed in 2020.

We will continue to keep you updated as work progresses.

Early earthworks November 2019

Map not to scale

LEGEND

-  Temporary roundabout
-  Site compound
-  Badgerys Creek Road re-alignment paving and concrete cutting (22 November to 31 December)
-  Concrete barriers
