

Fuel farm works

October 2022

Dear Neighbour,

Western Sydney Airport (WSA) is commencing construction of the Aviation Fuel Farm.

Works are being completed by WSA's Terminal and Specialty Services contractor, Multiplex.

The fuel farm will provide facilities for the delivery, storage and dispensing of aviation fuel to service the operations of Western Sydney International (Nancy-Bird Walton) Airport, including:

- Storage tanks and pipework
- Pumping and testing equipment
- Tanker truck pumping infrastructure
- Administration and workshop buildings
- Supporting services infrastructure
- Pavements and parking

When will work commence?

Works will commence from **Early November 2022**, weather permitting.

Standard construction hours:

Monday to Friday: 7am – 6pm

Saturday: 8am – 1pm

Our works are generally carried out within standard construction hours, however, there may be certain activities or unavoidable circumstances which will require out of hours work. The community will be notified as required.

Works will include:

- Site establishment and excavation;
- Piling and structure works;
- Installing structural steel, concrete works and utilities;
- Building fit out and external works.

How will you be affected?

We will be using excavators, graders, concrete boom pumps, mobile cranes, piling rigs, and other construction machinery to conduct this work.

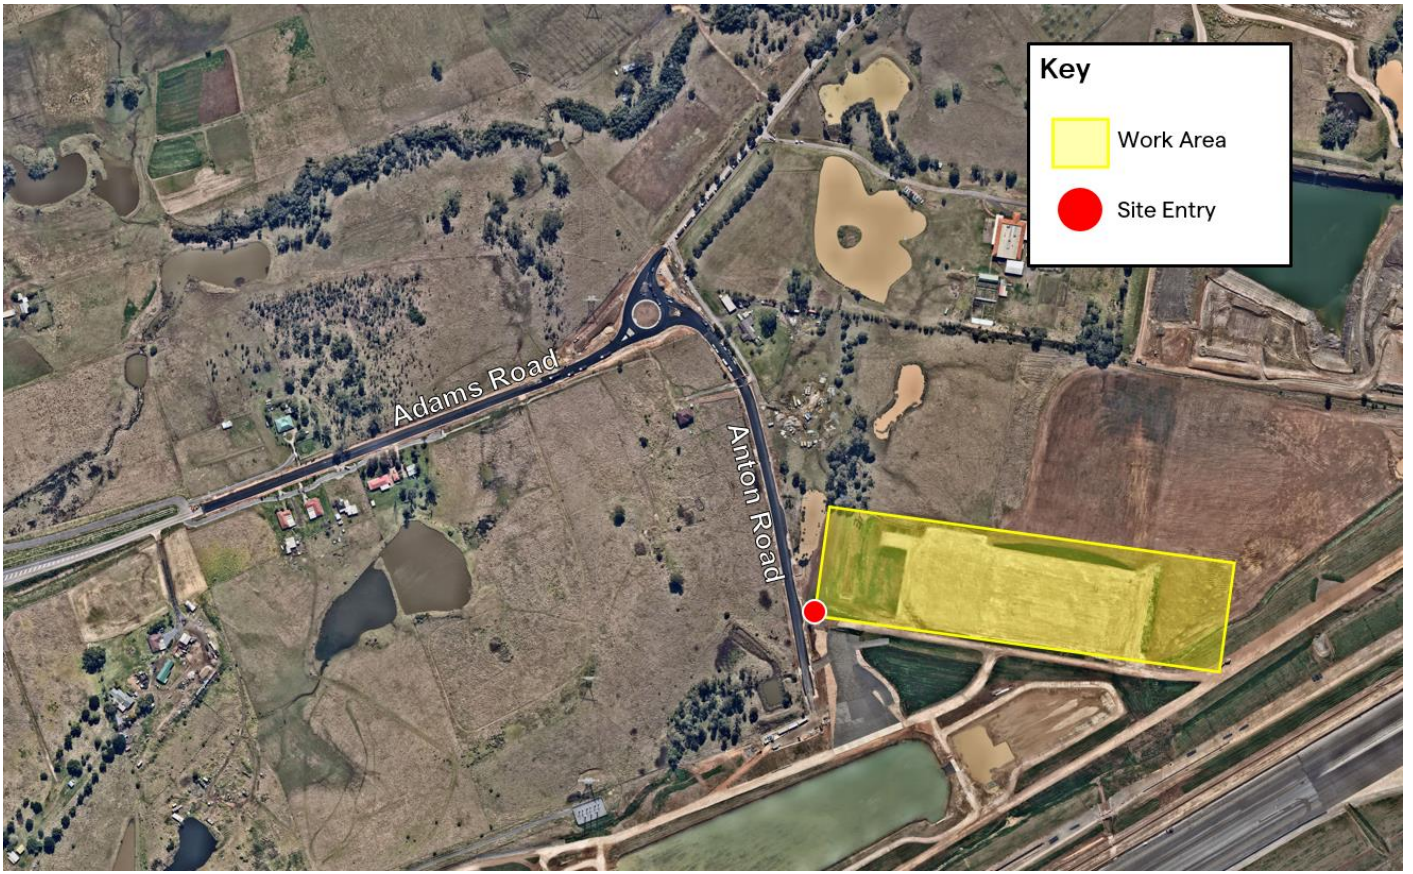

You can expect to see an increase in vehicle movements on Adams Road and Anton Road, including regular truck deliveries to and from the site entry.

Please refer to the map on the following page for the exact location of the work.

We will continue to work closely with our neighbours as we deliver this project and other projects within the airport site to build Western Sydney International (Nancy-Bird Walton) Airport and we will update you as work progresses.

For further information or enquires regarding these works or other airport construction activities, please contact our information line on 1800 972 972 or send an email to info@wsaco.com.au.

Location of work

If you would like to receive Western Sydney Airport's notifications and updates electronically, please send an email to info@wsaco.com.au with your name, best contact number, address and preferred email address.

We welcome your feedback on how we can better engage with our community during construction.
